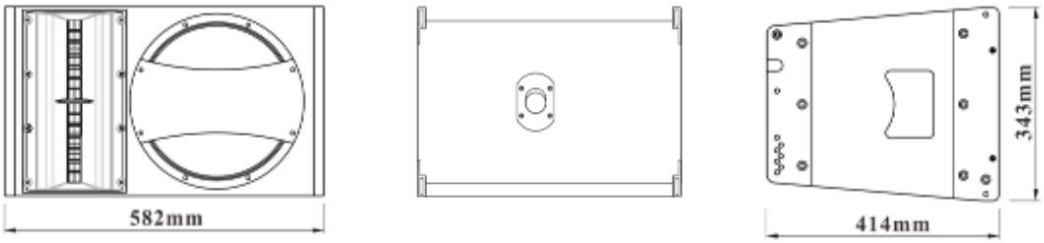
Single 12" active line array full range speaker LA12A

LA12A



Features

1:The single 10 active line array LA12A consists of a 12-inch, 75mm voice coil professional woofer and two 2.5-inch tweeter, built-in 1000W digital amplifier, it is the best combination with active line array low frequency speaker LA20SA ;

2: With clear sound quality ,the middle and low frequency is full, the high sound is fine, and the sound is not distorted under high power;

3:With the high quality aluminum suspension system,the angle between speakers can be adjust from 0 degree to 20 degree.

4:Speakers can be stacked on the ground or hoisted in the air;

5:used for performances, conferences, entertainment, etc.

Technical Parameters

Product model	LA12A
Frequency response	58Hz~18kHz
Drive unit	LF12"×1, HF2.5"×297dB±2dB
Maximum sound pressure level	123dB ± 2dB
Directivity level	level 120 / vertical 5 ° ~ 20 ° (depending on the number of arrays)
Amplifier input impedance	20kQ
Amplifier input sensitivity	0.775V
Output power	1000W
Amplifier distortion	<0.05%
Power interface	Power Con
Working voltage	AC190V~240V/50Hz
Appearance	black
Dimensions (HxW×D)	343×582×414mm
Net Weight	24kg
