## Description

This amplifier are designed for commercial and industrial public address applications. Rack mount design in 2 U type and rated power is 650 W .
Both balanced and unbalanced line inputs for each channel make it selectable for installer, balanced line output feeds to another power amplifier as well as secures the signal transmission is less noise and longer distance. $70 \mathrm{~V}, 100 \mathrm{~V}$ and 40 hm speaker outputs are convenient for installation when selection different speaker matching. A master volume control is included. Complete protection includes clip, short circuit, high temp and overload. Indications for power, signal, clip, protection and temp.
