

## D7733

### Dual 10-Inch 3-Way All-Weather Line Array Loudspeaker

#### Description

The D7733 is a dual 10-inch 3-way all-weather line array loudspeaker engineered for clear, detailed sound with strong projection. Its IP66-rated enclosure and versatile three-point suspension make it ideal for outdoor and large-scale installations.

#### Features

- Enclosure molded from polymer composite materials, with a five-layer waterproof and dustproof grille.
- 3-way design delivering clear, delicate sound with strong penetration.
- All-weather design meeting IP66 protection rating.
- Three-point suspension mounting for easy installation.

#### Specifications
